### How does our processing benefit our customers?

Our Dry Roasting® process reduces the moisture content of the rice which can often give it a grassy flavor; our wild rice offers a rich, nutty flavor.

Scarifying (*scratching*) the wild rice allows the kernel to fully blossom and increases the yield.

This process also reduces the cook time of our wild rice.

Chieftain's wild rice is combined with ingredients to make 14 unique blends.

**Available in 2# or 5# Bags~Volume Discounts available.**
